FINO

THE ESSENTIAL THIRST QUENCHER

Fino is more than a traditional faucet; it is an advanced thirst quencher that effortlessly meets all your water needs. Its **design exceeds the standard** and integrates seamlessly into any environment. Fino is waiting to delight you with delicious drinking water, just the way you like it: water in a variety of temperatures and textures, delicious taste and unparalleled purity.

INNOVATION HIDDEN IN SIMPLICITY

Fino proves that innovation doesn't have to look complex.

With a thoughtful combination of **durable materials** and **sophisticated technology**, this drinking water faucet combines functionality and design in a way that users effortlessly understand. Instead of relying on flashy touch screens, Fino is designed with the philosophy of "less is more".

The micro distortion technology in the round control allows for **direct and physical interaction with the material**, providing a user-friendly and durable solution that fits into any environment.

EXTREME PURITY

Fino offers the best filter on the market. The **NSF401-certified filter** removes impurities down to 0.2 μm , meaning microplastics are completely filtered out of tap water. The activated carbon eliminates unwanted tastes and odors, such as those from chlorine. Thanks to the high filtration capacity, you benefit from a more efficient water flow, allowing you to **fill your glass or water bottle much faster**.

THE FINEST ON THE MARKET

A **refined, graceful form**, with no unnecessary clutter.

It exudes class combined with playfulness, yet without being intrusive.

Recently, Fino was awarded the **IF Design Award**, a recognition of its refined design and functionality.

Fino is available with an elegant PVD-X coating or a stylish BRONZE-X finish. The PVD-X coating creates a thin hard and protected layer, the BRONZE-X finish not only protects your faucet, but also gives it a **warm, sophisticated look**. Each faucet is **hand finished**, resulting in a unique piece that fits seamlessly into any interior.

FUNCTIONALITIES YOU CAN'T LIVE WITHOUT

AQUALEX Electronic Valve Set, a revolutionary solution optimized for both user and technician. The new valve box offers users an intuitive experience with reliable performance, aiming to get the most out of every AQUALEX product.

- **Ease of use:** Easily choose the operator interaction and set up to three fixed dosages to quickly fill your favorite glass or bottle.
- **Personalization:** Language, country, brightness and even LED colors can be customized.
