

BUOM CUSHIONED LOUNGE CHAIR

2042-CUCH

DISTRICT EIGHT

BUOM was designed around the silhouette of a sail in full wind - the Vietnamese word *bướm* giving the collection both its name and its suspended visual logic. Here, Jean-Marie Massaud introduces a softer expression: in place of the suspended leather sling, an upholstered version whose generous duvet softens the silhouette while preserving its essential lightness and clarity. The slender oak frame, slanted stance, and sail-inspired geometry remain intact. An invitation to linger.
